Deans' Messages

Building socialism with Chinese characteristics requires many talented people in economics and management who understand both the general rules of the market economy and the particular circumstances of Chinese enterprises.

Tsinghua University School of Economics and Management should learn from all the great schools of economics and management around the world and adopt their teaching contents, methods and tools and apply them to the Chinese situation. Let's work together toward the goal of building a world-class school of economics and management.

Since its establishment in 1984, Tsinghua University School of Economics and Management (Tsinghua SEM) has made remarkable achievements under the leadership of successive deans, through the efforts of all faculty and students, as well as the help of alumni and friends.

As China enters a new era, the School needs to make a new effort. Since economic reform and opening started 40 years ago, China has achieved remarkable success in economic development, but the economic and management research community in China has yet to be very successful in telling the "China story" academically. It is our responsibility to be more courageous and innovative, and at the same time adhere to high academic standards, in creating academic results inspired by the practices in China that can significantly impact the fields of economics and management studies, and effectively combine such results with existing knowledge to improve the quality of education. Our School is willing to work together with other colleagues in the profession to advance this cause, contributing to the advancement of human knowledge and to the development of China and the World.

Programs

Tsinghua SEM is committed to advancing knowledge and cultivating leaders for China and the world. The School strives to provide students with the highest quality education to help them reach their full potential. The School has over 6,000 students in the undergraduate, doctoral, master’s, MBA, and EMBA programs. In addition, the School offers collaborative degree programs and executive education programs.

Tsinghua SEM’s strong international reputation, commitment to academic excellence, and global orientation attract students from across the globe. The School currently enrolls over 600 international students and students from Hong Kong, Macao, and Taiwan. The School offers student exchange programs with 112 leading universities and business schools around the world.

Undergraduate Programs

Program

Undergraduate education at Tsinghua SEM emphasizes three aspects:

The goal of an undergraduate education is two-fold: to help every student become a modern, cultured person, and to foster an environment that promotes top talents in their respective fields.

Second, the School pursues a "three-pronged" approach to education, which is composed of value formation, capability development, and knowledge acquisition.

Third, the School follows an approach that integrates general education with individual development.

In 2014, Tsinghua SEM's Undergraduate Education Reform won the China National Education Achievement Award.

Majors

Tsinghua University enacted a new undergraduate enrollment policy beginning in 2017. Tsinghua SEM recruits students under the categories of "Economics, Finance, and Management." Freshmen choose majors from Economics and Finance, and Information Management and Information Systems in the spring semester of the first academic year.

- ◎ **Economics and Finance (including Accounting and Insurance)**

The Economics and Finance major cultivates high quality economic and financial talents who have a basis in systematic economics and financial theory and analysis.

The curriculum balances economic and financial theories with practical knowledge and offers both a global perspective as well as a special focus on China's economic miracles and unique financial system.

- ◎ **Information Management and Information Systems**

The program cultivates management talents with an international perspective and equipped with skills to master the laws of business activities in the new digital economy era. Candidates are taught to effectively develop and use information technology and business analysis methods to optimize management and lead future innovation.

- ◎ **Business Administration (for student athletes)**

The program cultivates student-athletes comprehensive professional talents to meet the needs of country and society, by helping them achieve comprehensive knowledge of humanities and business management, to match their results in various sport events at home and abroad. The program has a duration of five years, including a one-year prior course followed by four years of undergraduate study.

School of Economics and Management Minors

The School offers four minor paths for non-SEM students: business management, accounting, economics and finance, and information management and information systems.

Double Bachelor's Degree in Computer Science and Finance

Training Objectives

The goal of the program is to advance the integration of computer science, big data, and artificial technology and its applications with financial industry. The undergraduate dual degree program in computer science and finance is an interdisciplinary combination of computer science, finance, and management, and aims to develop students' research abilities and management talents in the IT and financial fields. The program offers a high-caliber professional education based on the intersection of the two disciplines, allowing students to achieve a broad practical knowledge base. The program maximizes students' innovation potential and ambitions to learn, allowing them to make broad contributions to society in academia as well as entrepreneurship.

Development Characteristics

The program emphasizes a wide caliber of professional training with a basis in general education. With a foundation in mathematics, the program strives to lead revolutionary changes in the financial field in the new information age.

The program places an emphasis on flexibility and practical knowledge to strengthen dialogue between the two disciplines. The resources of the School of Economics and Management combined with the Department of Computer Science not only enhance students' double degree experiences, but also create positive "spill-over effects" in the two departments themselves, promoting deeper integration of the two disciplines.

Cultivation Effectiveness

The computer science and finance double degree program develops students' individual abilities through various educational and teaching activities, helping them cultivate their academic interests in humanities and sciences to further become diverse and insightful talents. With an international vision, an innovative spirit, and the unique ability to communicate effectively and solve challenging problems as part of a team, it gives the students the capabilities to deepen knowledge in their interdisciplinary fields as well as engage in scientific research in technology, development, education, and management.

Undergraduate Programs

Tsinghua University-The Chinese University of Hong Kong Dual Undergraduate Degree Programme in Economics

Programme Overview

Tsinghua University and the Chinese University of Hong Kong jointly run a four-year university dual-degree programme in Economics. Participating students receive graduation certificates from Tsinghua University and the Chinese University of Hong Kong upon meeting the respective degree requirements of the programme.

Project Features and Professional Advantages

- 1. The programme is entirely in English and open to global enrollment.
- 2. Diversified cultural experience. Students will experience the study life and campus culture of the two universities, as well as have access to alumni networks of both universities.
- 3. This programme will expose students to a global perspective, as well as an in-depth focus on China. The majority of faculty have obtained Doctorate degrees from prestigious universities. In addition, many faculty have taught and conducted research at prestigious universities abroad. Many of the faculty conduct research on local issues, aiming to deepen the world's understanding of the Chinese economy.
- 4. The programme offers a combination of theory and application, emphasizing a solid foundation in major courses, as well as providing a broad selection of elective courses for students to choose based on their personal interests and career plans.
- 5. Employment prospects for students are broad, with many students choosing to work in the public sector, including agencies concerned with national economic

development, as well as private companies in areas such as investment banking, commercial banking, insurance companies, investment management companies, financial and management consulting, and other large enterprises.

Language of Instruction, Educational System, and Degree Conferment

- 1. All instruction of this programme will be in English. Those who have completed the required teaching plan, passed the assessments and the graduation thesis defense will obtain their bachelor's degree certificates issued by Tsinghua University and The Chinese University of Hong Kong respectively. Tsinghua University will award a Bachelor's Degree in Economics, and The Chinese University of Hong Kong will award a Bachelor of Social Science in Economics.
- 2. The degree will be offered in four academic years, with two years at Tsinghua University and two years at The Chinese University of Hong Kong respectively.

Admissions Target

We welcome applications from all over the world.

Doctoral Programs

Program

Tsinghua SEM's doctoral programs are designed to develop outstanding scholars in research and teaching in the field of economics and management at leading Chinese and overseas universities.

Program Features

Application Process

Applicants are required to choose a field of study during the application process. Advisor selection takes place after the qualification exam.

Fields of Study	Department
Accounting	Department of Accounting
Theoretical Economics and Applied Economics	Department of Economics
Finance	Department of Finance
Innovation, Entrepreneurship and Strategy	Department of Innovation, Entrepreneurship and Strategy
Leadership and Organization Management	Department of Leadership and Organization Management
Management Science and Engineering	Department of Management Science and Engineering
Marketing	Department of Marketing

Academic Curriculum

To standardize the doctoral curriculum, Tsinghua SEM has established three doctoral core-course platforms,

including Economics/Finance/Accounting, General Management, and Management Science and Engineering. Each of the three platforms has a specific set of general and field-specific required courses. Doctoral students are expected to focus on coursework in the first two years of study.

The School requires all doctoral students to take a qualification examination within a time limit. Qualification exams are graded anonymously.

Doctoral students are also required to write and present their second-year research papers.

All doctoral theses are assessed by faculty and outside experts under a double-blind review process.

Education and Placement

Each academic department has established a doctoral program committee which is responsible for the overall coordination, design, and implementation of the program.

The committee serves as faculty liaison available to doctoral students for support, problem-solving, and facilitation of learning activities to enhance the students' educational experience. The committee also provides mentorship and career advice as well as guidance in placement for doctoral students.

Resources and Support

Tsinghua SEM offers scholarship and fellowship funding to doctoral students. Outstanding doctoral students are provided with opportunities to study abroad for one semester or one year to conduct research with internationally renowned scholars as well as opportunities to participate in domestic and international academic conferences.

Master's Programs

Master of Finance

Program Objectives

The program aims to develop exceptional financial professionals with comprehensive and applied knowledge in economics and finance, a global perspective, and the ability to adapt to rapidly changing financial markets.

Tsinghua-Columbia Dual Master's Degree Program in Business Analytics

Program Objectives

The program aims to develop interdisciplinary talents in the fields of management theory and cutting-edge information technology, with an emphasis on global vision and strong business analytical skills. It is also a pioneer in developing an interdisciplinary education system that integrates data science and management theory.

Program Features

The program, implemented by Tsinghua SEM and the Fu Foundation School of Engineering and Applied Science of Columbia University, is the first dual master's program in this field between Chinese and American universities. It is a full-time program that usually takes 2-3 years to complete. Students admitted to the dual degree program will study at Tsinghua University in Beijing, China, for the first year, and through an expedited application process, be enrolled and study at Columbia University in New York, USA, for the second year.

The program focuses on big data application in management, improving their knowledge base in data analytics and modeling and enhancing management skills. Students who have successfully completed the program will receive a diploma and a master's degree in management from Tsinghua University and a Master of Science degree from Columbia University.

MBA Programs

Launched in 1991, Tsinghua MBA Programs are designed to cultivate future leaders with comprehensive management capabilities.

Educational Philosophy

Tsinghua MBA Programs focus on cultivating students from three aspects: Being, Knowing and Doing, and strive to help students pursue the balance of knowledge, capability and character, of academic discipline and practical relevance, and of global perspectives and China roots. These objectives are achieved through soft skill development, experiential learning, integrated learning and global experiences.

Curriculum Structure

The core curriculum is composed of five modules: Analytical Foundations, Management Fundamentals, Ethics and Soft Skills, China and the World, and Integrative Practices. The curriculum implements the MBA educational philosophy and covers the core knowledge in key management areas, with the aim to enhance students' capabilities and shape their character through various integrated practices.

Tsinghua MBA offers approximately 100 elective courses in eight specifications and four industries with practice-oriented business courses so that students could achieve in-depth learning and personalized development based on their career plans and interests. To cultivate high-level management talents that meet the demand of the development stage of the new era, Tsinghua MBA Programs have launched a series of courses on digital technology and China's ESG (Environmental, Social, and Governance) Practice Innovation.

Program Features

International Exposure

Tsinghua MBA students can apply for overseas exchange program, and study for one semester with tuition fees exemption at partner universities, or participate in short-term overseas exchange program or overseas modules.

Each year, over 100 overseas students from partner schools come to Tsinghua to study, which makes the Tsinghua MBA classroom even more international. Tsinghua MBA students can apply for a dual degree in universities including Columbia, MIT and HEC Paris.

Hybrid Classroom

Under the new situation, a new hybrid model combining offline and online learning is adopted: students who are back to school take classes in classrooms, and students who cannot return to school take online courses remotely. It promotes educational equity and brings a brand new experience to both students and faculty.

Entrepreneurial Resources

With the support from Tsinghua University and Tsinghua Science Park, Tsinghua MBA offers abundant entrepreneurial courses and practical programs to students. Students can participate in entrepreneurship education courses or join in teams for Tsinghua MBA Entrepreneurship Competition. Tsinghua x-lab and Tsinghua SEM X-elerator provide resources and support for MBA students during all phases from making start-up plans, organizing teams, setting up companies to seeking investment.

Alumni Network

Through over 20 years of development, the Tsinghua MBA Programs reach more than 10,000 alumni who are active and strongly connected with various industries, such as finance, consulting, manufacturing, science, technology and information service. The Tsinghua SEM MBA Alumni Association, with organizations across different levels, serves to improve communication and interaction among alumni themselves as well as between alumni and the alma mater to promote life-long learning, career development, and business cooperation among MBA graduates.

Tsinghua Global MBA Program (Full-Time)

Tsinghua Global MBA Program, jointly established by Tsinghua SEM and Massachusetts Institute of Technology (MIT) Sloan School of Management, is designed to cultivate global leaders by combining Tsinghua's character and MIT's elements. With international enrollment and study, the Program is tailored for business elites who aspire to achieve career transition and global competence after concentrating on completion of studies.

EMBA Programs

EMBA Programmes of the School of Economics and Management, Tsinghua University (Tsinghua SEM EMBA)

Launched in 2002, the Tsinghua SEM Executive MBA (EMBA) is committed to cultivating industry leaders and shaping the future of enterprises and organizations. The program combines advanced management theories and concepts with best practice in China to equip executives with strong business ethics, an innovative spirit, leadership skills, strategic decision making capability, and global competitiveness. In 2005, the program achieved outstanding results in the first official EMBA program evaluation by the Academic Degree Committee of the State Council. Since 2007, The programme has topped the “China’s Best EMBA Programme” ranking by *Managers* magazine for eight consecutive years.

⦿ Dedicated World-Class Faculty

The faculty team is composed of highly qualified Chinese and foreign academics and professionals with world-class credentials.

⦿ Students of High Quality

Since its launch, Tsinghua SEM EMBA has received the applications of tens of thousands of business elites. The program currently has 8,000+ alumni. Among them, 94% are ranked at Deputy General Manager level or above, and 83% are ranked at Chairman or General Manager of their organizations. In addition, three graduates were honored with China Central Television's China Economic Figures of the Year Award. Over 50 EMBA alumni are Deputies of the National People’s Congress or members of the Chinese People’s Political Consultative Conference, and more than 300 alumni are chairmen or founders of domestic or overseas listed companies.

⦿ Comprehensive and Practical Curriculum

The programme not only pays ongoing attention to economic situations at home and abroad, gains insight of the needs for corporate management and draws on lessons learned by world-class universities in operation, but also designs a unique curriculum with Chinese characteristics as well as Tsinghua’s uniqueness.

In 2012, the program launched a new curriculum structure which enables students to access university-wide knowledge and resources and enhances their ability to understand global megatrends, humanity and society, grasp opportunities, create favorable conditions, and achieve win-win outcomes, fully leveraging the advantages of SEM as a business school in a comprehensive university.

⦿ Upgraded Curriculum Structure

In 2020, the programme upgraded its curriculum: by acquiring an accurate understanding of current development trends and corporate needs, Tsinghua SEM EMBA introduced three new tracks (named Industry Leaders, Science and Technology Talents, Financial Technology) with an aim to further optimize its curriculum system, thus providing students with a keen and forward-looking vision and deep insight into global economic dynamics. The newly-added elements will offer thought-provoking ideas regarding businesses’ strategic transformation and innovative growth in the digital era.

Industry Leaders: China’s new generation of industrial leaders who will adapt to the times, drive change and transformation, and lead the global future.

Technological Talents: Talents with knowledge in both technology and management, and a new generation of entrepreneurs with cross-border capabilities and disruptive creativity.

Financial Technology: Financial leaders who are familiar with the development of technology, proficient in financial business, leading China's financial innovation and contributing to global financial change.

⦿ Extensive & In-Depth Global Cooperation

The program has been actively exploring international cooperation since its launch and was the first to join the EMBA Global Council. So far, it has launched overseas learning sessions in eight countries or regions including the East and West Coasts of the United States, France, Germany, the United Kingdom, Spain, the Middle East and Taiwan, China.

⦿ Sound Class Management

Tsinghua SEM EMBA, known for its sound, reasonable and innovative classroom management, has dedicated strong efforts to creating a favorable learning environment with the characteristics of Tsinghua University. Innovative efforts were undertaken to nurture a vibrant learning atmosphere and ensure smooth operation via activities such as class orientations, team building activities, “Knowing China by Seeing” and mobile classrooms.

⦿ Cohesive Alumni Network

Tsinghua SEM EMBA has established 30 regional alumni chapters, 17 alumni chapters in Beijing for students of the same graduating year, one Aeronautics & Aviation Management EMBA alumni chapter, one media alumni chapter and one overseas alumni chapter, as well as five interest clubs. The alumni network covers almost the whole country. Moreover, Tsinghua SEM EMBA often organizes Homecoming Day, academic evaluation, salons, forums and other activities to create a comprehensive lifelong platform for its students.

Tsinghua-INSEAD Dual-Degree EMBA Programme (TIEMBA)

The Tsinghua-INSEAD Dual-Degree EMBA Programme (TIEMBA) is jointly launched by School of Economics and Management Tsinghua University and INSEAD. Combining international business education with a focus on Asia, the joint programme is designed for executives and professional managers worldwide, especially for those from the Asia Pacific region.

⦿ Degrees from Two Prestigious Institutions

The programme is designed to offer participants the best of both institutions. The programme runs across Beijing, Shenzhen, Singapore, Fontainebleau and Abu Dhabi, providing unparalleled multicultural perspectives and insights into some of the most dynamic regions of the world. Bridging East and West business wisdom and expertise with rigorous study, the programme endeavors to broaden participants’ strategic vision, taking professional management and entrepreneurship to greater heights at the international level. The programme upgraded its curriculum responding to the market changes. The new curriculum fully embodies the advantages of Tsinghua University as a comprehensive university and INSEAD as a world leading business school, focusing on classic business fundamentals, global management insights, in-depth understanding of the Chinese context, and modern business & technology trends, as well as leadership and business practice. As a highlight of the programme, participants also receive personal Leadership Development coaching and go through the reciprocal Executive Exchange to draw from fellow participants’ management expertise.

⦿ A Lifelong Network

Upon successful completion of the programme, graduates will be awarded two separate degrees from Tsinghua and INSEAD respectively, and become alumni of both Tsinghua University and INSEAD, securing an exceptional opportunity to build a lifelong professional network spanning the continents.

“Future Tech Future Thinking” Programme

Launched in 2018, the “Future Tech Future Thinking” programme is designed to cultivate strategic tech-savvy entrepreneurs who master core science and technology and are able to lead China in the future and contribute to human society.

⦿ Political and Economic Wisdom + Future Technology

It integrates “political and economic wisdom” with “future technology” in curriculum design and accurately analyzes the approach of world-class companies to management and technological innovation. In this way, students can optimize the layout of their companies, empower themselves to seek further development in the industry and thus better cater to new trends in social and technological development.

⦿ “10+1 Model”

The programme integrates itself into cutting-edge technological fields exclusive to Tsinghua University in China and continues to fulfill Tsinghua’s social responsibility of cultivating key talents for the country by fully leveraging Tsinghua’s resources. The School of Economics and Management cooperates with ten schools of Tsinghua University to create the “10+1” model exclusive to the programme through assignment of two tutors to one student, resource sharing, and application of theoretical achievements into practice. The top-tiered scholars and scientists of Tsinghua University contribute to the programme by analyzing original and cutting-edge scientific and technological achievements, and building a model for application of theoretical achievements into practice.

⦿ Tsinghua Wisdom & Scientific Giants

The programme develops a top faculty team consisting of theorists, top-tiered scientists, masters in humanities, deans, best professors of Tsinghua SEM and industry leaders, to facilitate iteration of knowledge and enterprise transformation by innovation of teaching methods.

⦿ EMBA Alumni Network & Ecosphere

Tsinghua SEM EMBA alumni network boasts 8,000+ alumni, including 300+ chairmen or actual controllers of domestic or overseas listed companies, and 40+ NPC deputies and CPPCC members. They jointly build an alumni network and create a comprehensive lifelong platform for students to learn from and communicate with each other.

Collaborative Degree Programs

Tsinghua-Sotheby's Master's in Art Business

This program is targeted at future leaders in Western and Chinese art markets, equipping them with both managerial skills sets and global insight in the sector.

Jointly developed by Tsinghua SEM, Tsinghua Academy of Arts & Design and Sotheby's Institute of Art in 2015, the Tsinghua-Sotheby's Master's in Art Business is the first program in China that awards an MA degree in Art Business under the accreditation of the Ministry of Education. The module-based program provides academic lectures, panel discussions and guided visits to art-related institutions, featuring overseas modules in New York as well as thesis supervision. Scholarships are available for candidates demonstrating excellence and the program has established practice bases that offer internships to outstanding students.

Tsinghua SEM offers collaborative degree programs in partnership with overseas universities. Graduates of such programs are granted degrees from partner universities and certificates from Tsinghua University.

Executive Education Programs

Tsinghua SEM Executive Education offers a variety of non-degree management training programs to help executives enhance leadership capacity, expand career potential and ensure sustainable development of their organizations. It serves as a lifelong platform for entrepreneurs and executives to learn and develop.

Program Objectives

Executive Education aims to provide high-quality, globally oriented and tailor-made management education for senior executives from enterprises and organizations.

Program Features

Tsinghua SEM Advisory Board was a key advocate for the establishment of the Center for Executive Education in late 2001. Executive Education seeks to integrate non-degree executive education programs in a way that aligns with the school's curriculum plan. Executive Education provides general courses including ministries' entrusted programs, digital capability programs, comprehensive management programs, industry programs, international program, online education, and short-term focused programs as well as custom programs for executives of Chinese and global enterprises.

Courses

Executive Education has offered training to more than 90,000 senior executives and continuously innovated its courses to incorporate cutting-edge management knowledge and best serve the needs of corporate executives.

Capitalizing on strong faculty teaching and research capabilities, Executive Education offers courses that combine management theories with practice, provides new ideas to help executives react to management challenges and offers best practice on managing enterprises.

Executive Education has been taking responsibility for Ministries' Entrusted Programs. Executive Management Training Program for Central Enterprise Leaders (EMT) is jointly organized by the Organization Department of the Central Committee of the CPC, State-owned Assets Supervision and Administration Commission of the State Council and Tsinghua SEM. Attendants are top executives from central-government who controlled financial institutions, and major department leaders from SOE headquarters or its second-level subsidiaries.

New Era Entrepreneurs Develop Program (NEED) is a joint initiative of the United Front Work Department of CPC Central Committee, the All-China Federation of Industry and Commerce and Tsinghua SEM. Participants are all top private business leaders from various industries.

Tsinghua x-lab

Tsinghua x-lab is a non-profit university-based platform fostering creativity, innovation, and entrepreneurship since April 25, 2013. x-lab is the joint project of the School of Economics and Management and 15 partner schools and departments of Tsinghua University, including Environment, Mechanical Engineering, Architecture, Information Science and Technology, Materials Science and Engineering, Aerospace Engineering, Law, Arts and Design, Public Policy and Management, Engineering Physics, Medicine, Journalism and Communication, Natural Sciences and Education. It's an open platform which supports start-ups from all sectors and caters to the Tsinghua community of students, faculty, and alumni entrepreneurs.

Mission and Value Proposition

The "x" in "x-lab" refers to "exploration of the unknown" and "cross-disciplinary collaboration"; and "lab" denotes learning from experiences and teamwork.

Rooted in the Tsinghua SEM and supported by 15 partner schools and departments, Tsinghua x-lab is committed to developing a feasible and structured education system based on creativity, innovation, and entrepreneurship in three dimensions: education, cultivation and eco construction. In addition to serving students, faculty, and alumni entrepreneurs across Tsinghua University, Tsinghua x-lab is dedicated to cultivating innovative and entrepreneurial talents for the country and advancing the nation's strategy of development through innovation.

Services and Support

Education

X-lab offers a feasible and structured education system based on creativity, innovation, and entrepreneurship, which complements Tsinghua's academic programs.

Since fall 2015, innovation and entrepreneurial leadership have been objectives of the second undergraduate degree program in management at Tsinghua SEM, which is developed by the School's faculty and industry experts and is overseen by Tsinghua x-lab.

X-lab offers the Tsinghua Innovation and Entrepreneurship Certificate Program under the direction of Tsinghua Graduate School, which is open to all Tsinghua students. The program consists of 35 courses in three modules: mindset and skills, cross-disciplinary learning, and practical communications. Students who have met the program requirements will be awarded credits and a Certificate of Completion at the end of the program.

In addition to academic degree programs, Tsinghua x-lab is dedicated to hands-on learning and offers a series of activities such as the Innovate 48 Hackathon, Tsinghua x-lab and BMW IT Tech Office Innovation Challenge Lab, "GOLDWIND Cup" Energy Innovation Challenge, Nestlé Packaging Sustainability Innovation Challenge, and SDG Open Hack.

Over the past eight years, Tsinghua x-lab has participated in international exchange and cooperation with partner universities in Singapore, Germany, the United Kingdom,

and Switzerland, jointly developing summer camps, start-up exchange programs, boot camps, and global challenge labs, each of which is designed to broaden the students' international vision and enhance their innovation skills. Additionally, Tsinghua x-lab continuously provides students with access to international forums, summits, competitions, and other events, and encourages them to switch their roles from participants to international leaders.

Cultivation

X-lab equips teams with basic skills and a method to manage start-up teams through a series of courses and hands-on learning activities.

Tsinghua x-lab focuses on early-stage entrepreneurial models and experiential learning. It supports student teams and offers them an array of training and resources across all development stages. The platform organizes numerous events each year, including monthly Demo Days and Team Recruitment Days, which help teams to attract investment and talents, assist in incorporating a company, provide a physical workspace for free to aid projects across all industry sectors, and offer activities such as regular coaching, boot camps, roadshows, and seminars.

Eco Construction

X-lab establishes an innovative ecosystem that can be a bridge to mentorship, guidance, industry, seed capital, and tailored resources for Tsinghua start-up teams.

Tsinghua x-lab partners with more than 40 Resident-Entrepreneurs, more than 40 Resident-Angels, and eight Professional Resident-Enterprises, which has allowed it to establish a substantial footprint in the innovation ecosystem and engage diverse resources and stakeholders to start-up teams in such sectors as information technology; healthcare; energy and environment; education; science and technology; hardware and manufacturing; culture and sports; next-generation technology; and social innovation. It explores solutions to the "death valley" of entrepreneurship while promoting the development of Tsinghua start-up teams, and is committed to achieving an innovation-driven development strategy.

Brand and Recognition

The Tsinghua University President's Innovation Challenge has been organized by Tsinghua x-lab for eight years, creating an environment for innovation and empowering students to create exciting start-up businesses.

For its efforts, Tsinghua x-lab is widely recognized by the government and society. It was recognized as the first university-based "Maker Space" by the Beijing Municipal Government and received the Advanced Collective Award from Tsinghua University in 2019.

Services and Support

3-in-1 Acceleration Service System

Consisting of education, space and investment, our service system is designed for entrepreneurs around the globe, breeding creativity, innovation and entrepreneurship.

Education

Tsinghua SEM X-elerator is dedicated to establishing a systematic educational program and a series of courses focusing on frontier technologies. We provide both all-round and in-depth training services to inspire innovative thoughts.

X+Space

X+Space welcomes merited entrepreneurs from all over the world to gather, co-operate and grow here. Once the startups are enrolled in our program, they can utilize our 6+6+1 systematic services. Tsinghua SEM X-elerator will provide assistance and consultations on human resources, business model, technology, finance, local law and policy, empowering them from 1 to N.

Investment

To provide better FA services to entrepreneurs, Tsinghua SEM X-elerator has forged collaboration and partnership with 300+ investment firms, financial service platforms and large enterprises, empowering start-ups with professional capital docking.

Five-Dimensional Empowerment

Tsinghua SEM X-elerator empowers entrepreneurs through mentorship, vertical field training, branding, international collaboration and events, boosting global vision and competitiveness.

Mentorship Empowerment

Tsinghua SEM X-elerator has formulated a diversified and professional mentorship program aiming at instructing and helping entrepreneurs on managerial skills, technical knowledges, frontier technological development, product operation and marketing.

Industry Empowerment

Tsinghua SEM X-elerator has established several industry-focused entrepreneurial labs including "Block Chain Application Lab", "Lab of Sharing Economy and Community Economy", "Innovative Business Model Lab", "iLive Future Lab", "Medicine and Healthcare Lab" and "Technology in Cultural and Creative Action Learning Lab", accelerating the growth of startups.

"Global Entrepreneurial Leaders Club" is a systematic innovation acceleration program of Tsinghua SEM X-elerator. Through the integration of education, social resources, market resources and human resources, it provides growth empowerment for selected entrepreneurs and is committed to cultivate the next generation of innovative leaders with global perspectives. In 2020, Tsinghua SEM X-elerator launched "Global Entrepreneurial Leaders Club in innovative medicine (1st batch)" with the support of Institute for Hospital Management of Tsinghua University and Global Health Drug Discovery Institute (GHDDI). This program with WANG Xiaodong (a member of the National Academy of Sciences, USA and an academician of Chinese Academy of Sciences) as the chief mentor, gathered 27 founders from startups from 14 cities. By accompanying with the founders for three months, this program accelerated the growth of the startups.

Branding Empowerment

For the purpose of giving our entrepreneurs more exposure, Tsinghua X-elerator's social media platforms have introduced "X-elerator Innovator" and "X-elerator Voice of Teams" to explore channels of promotion, attracting partners and resources.

International Empowerment

In Tsinghua SEM X-elerator, more than 90% of startup teams currently are composed of doctoral and master graduates and executives from domestic and foreign universities with high reputation. Until now, we have created an international entrepreneurial community of 300+ members, hosted and co-organized more than 80 international conferences, lectures, visits, and academic exchanges, and forged partnership with more than 45 institutions.

Event Empowerment

During COVID-19 pandemic, Tsinghua SEM X-elerator has created a series of online events focusing in healthcare. In March, 2020, we invited 51 comprehensive health professionals including professors from universities, hospital administrators, experts and investors to speak at 13 online webinars. Until the end of 2020, the series have gained 2 million views and the views of written recaps has reached 3 million.

Research

Research Overview

Over the past three decades, Tsinghua SEM has conducted academic research in economics and management. Based on academic and economic priorities as well as teaching and research, the School has also actively pursued applied research in areas relevant to the government and corporate sectors. Excellent research capability has made Tsinghua SEM one of the leading schools of economics and management in China.

China Journal of Economics (in Chinese)

China Journal of Economics (CJE) is an academic journal in the field of economics, which is under the supervision of the Ministry of Education, sponsored by Tsinghua University, managed by the School of Economics and Management of Tsinghua University and published by Tsinghua University Press. Officially launched in the first quarter of 2014, CJE is published every quarter and its domestic public periodical number is CN10-1175/F. CJE is a comprehensive publication covering all aspects of economics. It publishes original and summarized papers in Chinese and studies general and China-related economic issues with scientific methodologies.

CJE is indexed by the extended edition of Chinese Social Science Citation Index (CSSCI) source journals (2019-2020) in 2019 and CSSCI source journals (2021-2022) in 2021.

Tsinghua Business Reviewing (in Chinese)

Founded on the occasion of the centennial anniversary of Tsinghua University in April 2011, *Tsinghua Business Review* is directed by the Ministry of Education and sponsored by Tsinghua University. With “thought-guided reform” as its aim of publication, the magazine is featured with “global vision, China roots, political and economic wisdom and humanistic spirit”, and committed to disseminating cutting-edge management theories and domestic enterprises’ best business practice.

China Business Case Center

China Business Case Center is dedicated to promoting the case method in business education and sharing knowledge and expertise in case writing, teaching, and learning. It houses a collection of over 1,000 teaching cases about Chinese companies with an annual addition of more than 100. The collection spans a wide spectrum of industry sectors and academic disciplines. In 2013, Tsinghua SEM was the first institution in China that commercialized its case collection, which is now subscribed by more than 140 institutions in China’s higher education system.

The Center has established strategic partnerships with Harvard Business Publishing, Ivey Publishing, the Case Center, and SAGE Publishing Group for the purpose of promoting China-related cases in a global setting. As of June, 2021, over 60 Tsinghua branded cases and innovative video materials are distributed via the platforms above. It also seeks to build a multi-source teaching material platform through partnerships with other distinguished business schools.

The Center holds high-quality case events such as workshops and forums to promote case writing and the case teaching pedagogy among business educators across the country. The annual Excellent Case Developer Competition also generates significant impact among experienced case writers, most of whom are faculty members teaching at business schools, or business researchers at other institutions.

Research Support

Library

Established in 1985, the Tsinghua SEM library has a floor area of 900 square meters and houses a collection of more than 100,000 books in Chinese and over 10,000 books in foreign languages. Approximately 6,000 new books are added to the collection each year. The School makes substantial investments to expand subscriptions to leading Chinese and international academic journals, newspapers and magazines across the broad areas of economics and management. The Tsinghua SEM library currently subscribes to 600 periodicals, including 160 in foreign languages.

Information Technology and Services Platform

Tsinghua SEM embarked on a major IT project in 2009 that aimed to empower education with technological innovation. The project was completed in 2013. Built upon a deep understanding of the demands of the modern classroom and the needs of today's students and educators, the new information technology and services platform is intended to provide an efficient, cost-effective and user-friendly platform for communication, knowledge exchange and resource sharing.

It also seeks to facilitate admissions, teaching, research and other school activities. The School's buildings are fully equipped with wireless Internet access. Internet and teleconferencing systems enable faculty and students to engage in intellectual activities anytime and from any location. A comprehensive suite of statistical software including SPSS, Mathematica, STATA, GAUSS and Scientific Work Place are also available on the new platform to support faculty research and teaching.

Data Research and Development Platforms

Tsinghua China Data Center (CDC) is a university-level research center, co-founded by the National Bureau of Statistics of China and Tsinghua University in July, 2016. It focuses on China's economic and social data with the mission of becoming a high-end, world-class research team and think tank with wide reputation focusing on utilizing and developing economic and social data. Tsinghua-NBS Data Research Center (TNDRC) is the first data development center established by the National Bureau of Statistics in a university. In order to build high-level data service platform, a ceremony was held at TNDRC in June 2018 to launch the micro-data development and application, which is an important milestone in public access to micro-data of China's government statistics to serve the public as well as scientific research. In order to further implement the requirements of the CPC Central Committee and the State Council on public access to government information, promote the opening and sharing of statistical data, and learn from international experience, the International Seminar on Micro-Data Development and Application, co-sponsored by the National Bureau of Statistics and Tsinghua University and organized by CDC, was successfully held at Tsinghua University during November 21-22, 2019.

CDC, in coordination with Tsinghua University School of Economics and Management (Tsinghua SEM) and the School of Social Sciences (SSS), successfully organized conferences in April 2019, November 2020 and April 2021 respectively to publish the Tsinghua China Balanced Development Index, which monitors the process of balanced development based on Chinese principal social contradictions and key development issues in the new era. CDC cooperates with SEM, SSS and China Institute for Development Planning to conduct quarterly analysis of China's macroeconomic situation, by producing in-depth research on major economic issues facing China and the world, and integrating macroeconomic data and high-frequency big data, with a view to building a brand with Tsinghua characteristics for macroeconomic analysis.
